Software

artis RIP V9

artisRIP Software

Specifically designed for artisJet's UV direct to print systems, ARTISRIP offers a simple and user friendly intuitive interface.

ArtisRip main features are:

Layout platform

Layout editing platform, resize, mirror, text, color adjustment, color gamut check.
Raster and vector images support
Built in customizable print templates for printing pens, phone covers, lighters, wood cases, etc...
Previewing and smart nesting

Print Engine

Vivid color reproduction
Simultaneous printing to multiple print devices
Simultaneous White and CMYK printing
- Color then White print mode
- White then color print mode
Support for jpg, tif, bmp, png, ai and pdf image files
Color management engine base with ICC profiles support
Individual ink channel adjustment
Automatic white ink trapping
Feathering rendering mode (eliminates banding, enhances color transitions)
Direct printing from common graphic software.(CorelDraw, Photoshop, Autocad...)

Core technology highlight

Automatic Printhead Height Adjustment

Equipped with sensors to automatically adjust head height and reduce the print head strikes.

Continuous Ink Supply System

Unlike ink cartridges, this system allows for 100% utilization of available ink.

Automatic Reprint Function

This functionality allows the reprint of the last print job from the control panel.
