### artisRIP Lite Software

Designed with the simplicity of use in mind, for artisJet RIP supports all BR printers models. It is suitable for beginners who are looking for a consistent vivid color output.

ArtisRip main features are:

#### Layout platform

Simple user friendly interface Print origin setting, image resizing Raster and Vector images support Repetitive print jobs for industrial applications Previewing

**Print Engine** Vivid color reproduction Bi-directional and Uni-directional print modes Supports multiple ink channel configurations Supports different resolution print modes (360x360 and up to 1440x2880dpi) Support for jpg, tif, bmp, png, eps and pdf image files Total ink limit and individual ink channel limit settings Color management engine with ICC profiles support Direct printing from common graphic software. (CorelDraw, Photoshop, Autocad...)

## Core technology highlight

Automatic Printhead Height Adjustment
Equiped with sensors to automatically adjust head height and reduce the print head strikes.

Continuous Ink Supply System Unlike ink cartridges, this system allows for 100% utilization of available ink.

**Automatic Reprint Function** 

This functionality allows the reprint of the last print job from the control
